

2015 PROCEEDINGS OF AATCC INTERNATIONAL CONFERENCE

March 24-26, 2015

Hilton Desota
Savannah, GA, USA

SPEAKER PRESENTATIONS

OLNEY MEDAL ADDRESS

Contributions to the Chemistry and Physics of Cotton Fibers 11

S. Haig Zeronian, Professor Emeritus, University of California, Davis

KEYNOTE ADDRESS

Doing Well or Just Looking Good? 17

Kevin Myette, bluesign technologies ag

CONCEPT 2 CONSUMER® (C2C) TRACK

► SESSION: Color & Lighting: “Bright Ideas”

Moderator: Karen Kylo, SGS Consumer Testing Services

Color and Lighting 2015: Update for Retail Supply Chain 18

Ann Laidlaw, ACL Color Consulting LLC

LED Lighting in Museums: Conservation and Color of Textiles 71

Mary Ballard, Smithsonian Institution

Light Color and Color Quality Possibilities with LED 102

Eric Haugaard, Cree

► SESSION: Concept Innovation

Moderator: Kerry King, Spoonflower Inc.

The Testing and Evaluation Process of Developing a Digitally Printed 103
Performance Sustainable Textile Wallcovering for Commercial Applications

Martin Gurian, Designtex

Accurate and Complete Color Communication = Color that Works 113

John Darsey, Color Solutions International

Innovation Ideation from Concept to Commercialization 159

Portia Blunt, New Balance

Cotton Innovations: Cotton Incorporated Presents a New Collection of 160
Textile Developments

Yvonne Johnson, Cotton Incorporated

2015 Proceedings of AATCC International Conference 7

► **SESSION: Materials Development**

Moderator: Ann Laidlaw, ACL Color Consulting LLC

Thermal Regulation for Cotton 236

Renuka Dhandapani, Cotton Incorporated

Innovation in a Regulated World 273

Joe Walkuski, Texbase

► **SESSION: Consumer Product Interests**

Moderator: Heidi Carvalho, Rothtec Engraving Corp.

Color with Life: Bio-Based Colorants 295

Sarah Bellos, Stony Creek Colors

Choosing a Fit Model for Smart Garments: A Case Selection Approach 311

Using 3D Body Scanning

Mahendran Balasubramanian, Oklahoma State University

Evaluation of Apparel Quality from the Consumer's Perspective 326

Laurel D. Romeo, Louisiana State University

► **SESSION: Consumer Product Interests**

Moderator: Carol Revels, Lands' End Inc.

Digital Technologies for the Apparel Decorator 334

Johnny Shell, SGIA

The Quest for Performance Features: Consumers' Expectations Revealed 356

Kim Kitchings, Cotton Incorporated

Cotton is the "Frenemy" – The Story of Under Armour's Charged Cotton 357

Tom White, Under Armour

CHEMICAL APPLICATIONS TRACK

► **SESSION: Sustainability in Textiles**

Moderator: Kanti A. Jasani, Performance & Technical Textile Consulting

Advances in Sustainable Textile Wet Processing 358

Peter J. Hauser, North Carolina State University

2015 Proceedings of AATCC International Conference 8

The Changing Landscape of Chemicals in Consumer Products 384

Amanda Cattermole, Cattermole Consulting Inc.

Elastane Blends: A Consumer's "Dream" or a Producer's "Nightmare" 397

Mike Cheek, Huntsman

► **SESSION: Herman and Myrtle Goldstein Student Paper Competition**

Moderator: Fred Cook, Georgia Institute of Technology

Manipulating Electrospun Nanofiber Formation from Polyethyleneoxide by 398

Surfactant Addition

Michael Humphreys, University of Massachusetts-Lowell

Transparency: The Unlikely Steward of Increased Profits through Corporate 408

Accountability and Social Compliance in Global Textile & Apparel Sourcing

Blaze Javier Mandela, Fashion Institute of Technology

Study of Hydrophilic Modification for Polyamide 6,6 using Subtilisin 418

Most. Setara Begum, Zhejiang Sci-Tech University, China

Study of Biocompatibility and Cell Proliferation on Microalgal Polyhydroxy 430

Butyrate (PHB) Fibrous Structures for Wound Healing Applications

Apurba Banerjee, University of Georgia, Athens

► SESSION: Advances in Wet Processing

Moderator: Bert Truesdale: TenCate Protective Fabrics

Efficient and Responsible Methods for Indigo Dyeing and Garment Washing 441

Mike Tyndall, Cotton Incorporated

Novel Innovations for the Cold Temperature Textile Processing 462

Arlan Peters, Novozymes North America

Water Repellent and Flame Retardant 463

Magali Brown, NICCA USA

Recent Developments in Environmentally Friendly Wrinkle-Free Finishes 487 of Cotton Fabrics

Gang Sun, University of California, Davis

2015 Proceedings of AATCC International Conference 9

► SESSION: Advances in Specialty Materials and Finishing

Moderator: Nelson Houser, M. Dohmen USA

Fast Drying for Textiles: Energy Saving via Surface Chemistry Approaches 495

Jiping Wang, Zhejiang Sci-Tech University, China

Evaluation of Active Moisture Management Effects with Standard and 517 Adapted Test Methods

Emiel DenHartog, North Carolina State University

Fluoro and Non-Fluoro Chemistry for Repellency: Where We Are and Where 544 Are We Going?

Geoffrey Gettliffe, Archroma

Evaluating Insulative Materials for Conductive Thread 545

Mary Ruppert-Stroescu, Oklahoma State University

MATERIALS TRACK

► SESSION: Protective Textiles

Moderator: Haskell Beckham, Exponent

Ventilation of Firefighter Turnout Gear: Reducing Heat Stress and 546

Improving Physiological Comfort

Meredith McQuerry, North Carolina State University

Pilot Scale Coating of Fabrics with Fluorodecyl Polyhedral Oligomeric 576

Silsesquioxane/Fluoroelastomer Blends for Water and Liquid Chemical Repellent Clothing

Quoc Truong, US Army Natick Soldier RDE Center

Plasma Enhanced Synthesis of Flame Retardant Cellulosic Materials 604
Majid Sarmadi, University of Wisconsin, Madison

► **SESSION: Medical Textiles**

Moderator: Brian Shiels, PBI Performance Products

Self-Sanitizing Textile 605

Gina Sloan, Microban International

Measuring Compression in Compression Garments 626

Erin Kirkpatrick, Exponent

2015 Proceedings of AATCC International Conference 10

***Advances in Antimicrobial Testing Using Globally Harmonized, Industry 627
Accepted Test Method***

Robert Monticello, International Antimicrobial Council

Novel Bi-component Fibers for Medical Applications 679

Walter Chappas, Georgia Southern University

► **SESSION: Functional Materials**

Moderator: Fred Cook, Georgia Institute of Technology

Functionalization of Nylon 6 Nanomembranes with Polyester Coated 680

FE₃O₄ Nanoparticles for Water Treatment Applications

Nidia Trejo, Cornell University

Biodegradable and Biocompatible Soy Protein/Petroleum-Derived 681

Electrospun Nanofiber Patches for Plant Protection

Robina Hogan, United Soybean Board

Agrochem Based Chemistries for Biomedical and Commercial Applications 682

Michael Jaffe, New Jersey Institute of Technology

Plasma Coupling for Improved Herbal Finishing of Textiles 731

Seshadri Ramkumar, Texas Tech University

Recent Case Studies in the Medical and Consumer Textiles Field 732

Mark Etchells and Rich Karpowicz, ETC Innovation LLC

► **SESSION: New Developments**

Moderator: Robina Hogan, United Soybean Board

***Simultaneous Measurements of Cotton Fiber Maturity, Fineness, Ribbon 733
Width and Micronaire***

James Rodgers, USDA-ARS-SRRC

Textile Size from Soyprotein for High-Speed Weaving 742

Helan Xu, University of Nebraska

Novelty Nonwovens Made of Flax 767

Marc Jolly, Norafin Inc.
